

Panhandle Home Health Exceeds UW Goal

Employees of Panhandle Home Health, Inc. (PHHI) opened their hearts and exceeded their workplace goal for the 2008 United Way campaign's "Join Hands, Open Your Heart". This year, the employees raised a grand total of \$4,917, exceeding their goal of \$4,200. As incentive for their employees to participate, PHHI management washed the cars of

all employees who made their donation the day the campaign kickoff. They also had drawings for gas/gift cards donated by Martin's, ROC's and Daily Grind, with seven lucky staff members receiving the prizes. A contest was held to see which team of staff members could raise the most funds for United Way.
